

AMERICAN-MADE FURNITURE AT GREEN FRONT

THE LOOK

Integrity. Skill. Handcrafted.
Natural.

These words signify the look of American-made furniture. Green Front Furniture is proud to showcase American-made products across its buildings.

American-made furniture celebrates a proud tradition while also giving honor to the materials with which the pieces are built.

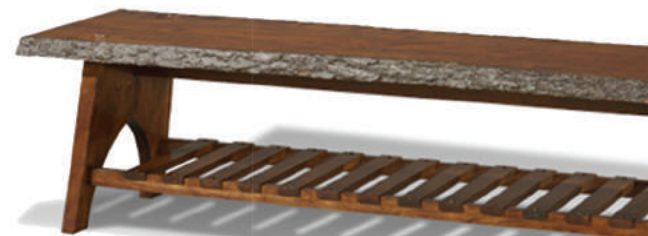

Think natural edges, leather and brass, dovetail joinery.

Nature is king when it comes to American-made furnishings. Think of a neutral color palette with soft pops of color like an earthy red leather sofa. Texture should also be top-of-mind as you hunt. Plan to choose pieces in a variety of textures—mixing wood that's both smooth and polished and pieces with a rough, natural edge.

BARKMAN DINING

Reclaimed barn wood can bring a sylvan ambiance into your dining room or entryway.

HARDEN

A live-edge table beautifully juxtaposes sleek sheen with rough-hewn edging and pairs well with contemporary upholstery.

OLDE GOOD THINGS

Throw a dash of the unexpected into your design with an item like this metal mirror.

HANCOCK & MOORE

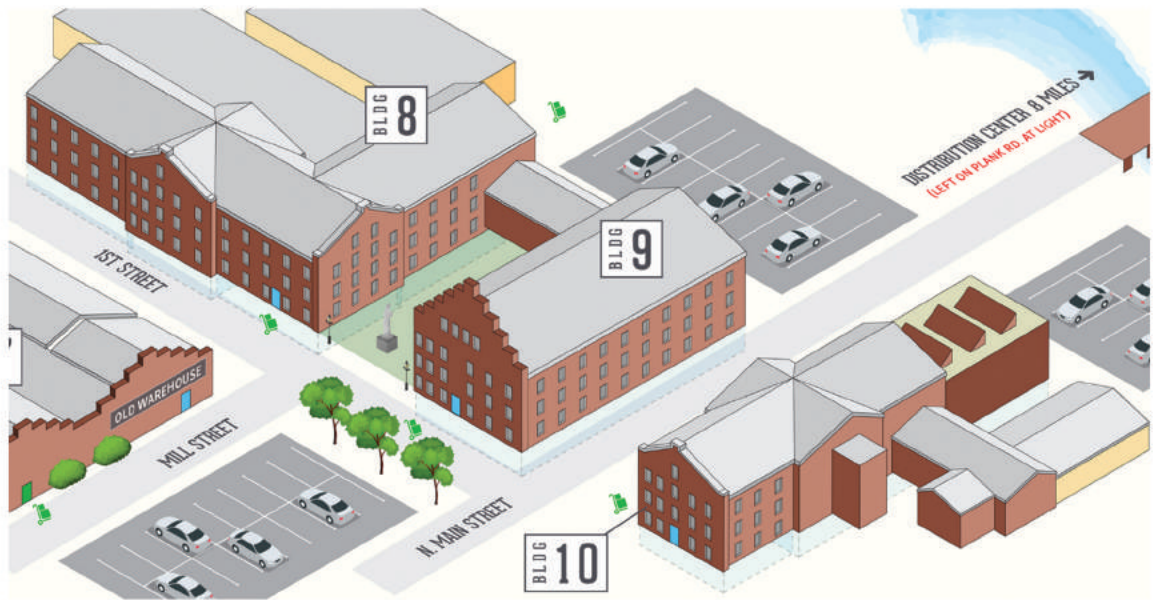

Has red become the new black? A beautifully tufted, tomato-colored sofa is at home in the formal living room, master bedroom, or library.

ZIMMERMAN CHAIR

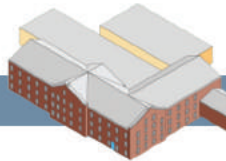

Incorporate a handcrafted bench, bookcase, rocker, stool, or dining table.

AMERICAN-MADE AT GREEN FRONT

BLDG 8

If you've never visited Green Front before, Building 8 is a great starting point! This building is the largest of our tobacco warehouses and features American-made masterpieces from top names like King Hickory and Amish-crafted Barkman as well as in-demand lifestyle brands like Magnolia Home. Building 8 not only has furniture but also decor and outdoor furnishings for a one-stop shop. Although you won't want to stop with 15 additional buildings to be discovered.

FOURTH FLOOR: Bradington-Young, Carolina Custom Leather, Elite Leather (HAS AN IMPORTED LEATHER BRANCH), MotionCraft

BLDG 10

Building 10 is home to classic American manufacturer Harden and is the place to find live-edge furnishings. Be sure to hike up to the third floor for American-made pieces from manufacturers like Charleston Forge, Highland House, Habersham and Whitewood.

Building 10 is filled with history. Also called the Craddock Terry building, the second half of the building was the Craddock Terry shoe factory. Rumor has it that this part of the building was constructed from brick taken from pilings of High Bridge, a key point of interest during the Civil War. The first half of the building was a tobacco warehouse like its neighbors.
